## Technical data

### Basic data

|                     |                                                        |
|---------------------|--------------------------------------------------------|
| Series              | 730                                                    |
| Operating principle | Throughbeam principle                                  |
| Device type         | Receiver                                               |
| Contains            | Accessories for the use of the BT-2R1                  |
| Application         | Detection of transparent objects<br>Object measurement |

### Special version

|                 |                                                                           |
|-----------------|---------------------------------------------------------------------------|
| Special version | Crossed-beam scanning<br>Diagonal-beam scanning<br>Parallel-beam scanning |
|-----------------|---------------------------------------------------------------------------|

### Optical data

|                          |             |
|--------------------------|-------------|
| Measurement field length | 1,910 mm    |
| Number of beams          | 96 Piece(s) |
| Beam spacing             | 20 mm       |

### Measurement data

|                         |       |
|-------------------------|-------|
| Minimum object diameter | 30 mm |
|-------------------------|-------|

### Electrical data

|                    |                                                                                 |
|--------------------|---------------------------------------------------------------------------------|
| Protective circuit | Polarity reversal protection<br>Short circuit protected<br>Transient protection |
|--------------------|---------------------------------------------------------------------------------|

#### Performance data

|                      |                                                                                                        |
|----------------------|--------------------------------------------------------------------------------------------------------|
| Supply voltage $U_B$ | 18 ... 30 V, DC                                                                                        |
| Residual ripple      | 0 ... 15 %, From $U_B$                                                                                 |
| Open-circuit current | 0 ... 350 mA, The specified values refer to the entire package consisting of transmitter and receiver. |

#### Inputs/outputs selectable

|                                     |                                     |
|-------------------------------------|-------------------------------------|
| Output current, max.                | 100 mA                              |
| Input resistance                    | 6,000 $\Omega$                      |
| Number of inputs/outputs selectable | 2 Piece(s)                          |
| Type                                | Inputs/outputs selectable           |
| Voltage type, outputs               | DC                                  |
| Switching voltage, outputs          | Typ. $U_B / 0$ V                    |
| Voltage type, inputs                | DC                                  |
| Switching voltage, inputs           | high: $\geq 6$ V<br>low: $\leq 4$ V |

#### Input/output 1

|                          |      |
|--------------------------|------|
| Activation/disable delay | 1 ms |
|--------------------------|------|

### Time behavior

|                        |            |
|------------------------|------------|
| Readiness delay        | 1,500 ms   |
| Cycle time             | 1.11 ms    |
| Response time per beam | 10 $\mu$ s |

### Interface

|      |          |
|------|----------|
| Type | PROFINET |
|------|----------|

### PROFINET

|                      |                         |
|----------------------|-------------------------|
| Function             | Process                 |
| Conformance class    | B                       |
| Protocol             | PROFINET RT             |
| Switch functionality | Integrated              |
| Transmission speed   | 10 Mbit/s<br>100 Mbit/s |

### Service interface

|          |                                       |
|----------|---------------------------------------|
| Type     | IO-Link                               |
| IO-Link  |                                       |
| Function | Configuration via software<br>Service |

### Connection

|                       |            |
|-----------------------|------------|
| Number of connections | 3 Piece(s) |
| Plug outlet           | Rear side  |

#### Connection 1

|                    |                                                                                                   |
|--------------------|---------------------------------------------------------------------------------------------------|
| Function           | Configuration interface<br>Connection to transmitter<br>Signal IN<br>Signal OUT<br>Voltage supply |
| Type of connection | Connector                                                                                         |
| Thread size        | M12                                                                                               |
| Type               | Male                                                                                              |
| Material           | Metal                                                                                             |
| No. of pins        | 8 -pin                                                                                            |
| Encoding           | A-coded                                                                                           |

#### Connection 2

|                    |           |
|--------------------|-----------|
| Function           | BUS IN    |
| Type of connection | Connector |
| Thread size        | M12       |
| Type               | Female    |
| Material           | Metal     |
| No. of pins        | 4 -pin    |
| Encoding           | D-coded   |

#### Connection 3

|                    |           |
|--------------------|-----------|
| Function           | BUS OUT   |
| Type of connection | Connector |
| Thread size        | M12       |
| Type               | Female    |

| No. of pins        | 4 -pin    |
| Encoding           | D-coded   |

### Mechanical data

|                       |                                                 |
|-----------------------|-------------------------------------------------|
| Design                | Cubic                                           |
| Dimension (W x H x L) | 29 mm x 35.4 mm x 1,943 mm                      |
| Housing material      | Metal                                           |
| Metal housing         | Aluminum                                        |
| Lens cover material   | Plastic                                         |
| Net weight            | 2,100 g                                         |
| Housing color         | Silver                                          |
| Type of fastening     | Groove mounting<br>Via optional mounting device |

## Technical data

### Operation and display

|                       |                   |
|-----------------------|-------------------|
| Type of display       | LED               |
|                       | OLED display      |
| Number of LEDs        | 4 Piece(s)        |
| Type of configuration | Software          |
|                       | Teach-in          |
| Operational controls  | Membrane keyboard |

### Environmental data

|                                |               |
|--------------------------------|---------------|
| Ambient temperature, operation | -30 ... 60 °C |
| Ambient temperature, storage   | -40 ... 70 °C |

### Certifications

|                      |               |
|----------------------|---------------|
| Degree of protection | IP 65         |
| Protection class     | III           |
| Approvals            | c UL US       |
| Standards applied    | IEC 60947-5-2 |

### Classification

### Note

A list with all available device types can be found on the Leuze website at [www.leuze.com](http://www.leuze.com).

## Notes

### Observe intended use!

- This product is not a safety sensor and is not intended as personnel protection.
- The product may only be put into operation by competent persons.
- Only use the product in accordance with its intended use.

### For UL applications:

- For UL applications, use is only permitted in Class 2 circuits in accordance with the NEC (National Electric Code).
- These proximity switches shall be used with UL Listed Cable assemblies rated 30V, 0.5A min, in the field installation, or equivalent (categories: CYJV/ CYJV7 or PVVA/PVVA7)

## Accessories

### Connection technology - Connection cables
