<ul> <li><sup>t</sup> This product is not a safety sensor and is not intended as personnel protection.</li> <li><sup>t</sup> The product may only be put into operation by competent persons.</li> <li><sup>t</sup> Only use the product in accordance with its intended use.</li> </ul>	

	ATTENTION! LASER RADIATION - CLASS 2 LASER PRODUCT
	<b>Do not stare into beam!</b> The device satisfies the requirements of IEC/EN 60825-1:2014 safety regulations for a product of <b>laser class 2</b> as well as the U.S. 21 CFR 1040.10 regulations with deviations corresponding to Laser Notice No. 56 from May 08, 2019.
*	Solution Never look directly into the laser beam or in the direction of reflected laser beams! If you look into the beam path over a longer time period, there is a risk of injury to the retina.
	∜ Do not point the laser beam of the device at persons!
	& Interrupt the laser beam using a non-transparent, non-reflective object if the laser beam is accidentally directed towards a person.
	♥ When mounting and aligning the device, avoid reflections of the laser beam off reflective surfaces!
	S CAUTION! Use of controls or adjustments or performance of procedures other than specified herein may result in hazardous light exposure.
	∜ Observe the applicable statutory and local laser protection regulations.
	<ul> <li>The device must not be tampered with and must not be changed in any way.</li> <li>There are no user-serviceable parts inside the device.</li> <li>Repairs must only be performed by Leuze electronic GmbH + Co. KG.</li> </ul>

#### NOTE

Affix laser information and warning signs!

Laser information and warning signs are affixed to the device. In addition, self-adhesive laser information and warning signs (stick-on labels) are supplied in several languages.

♦ Affix the laser information sheet to the device in the language appropriate for the place of use. When using the device in the US, use the stick-on label with the "Complies with 21 CFR 1040.10" note.

Affix the laser information and warning signs near the device if no signs are attached to the device (e.g. because the device is too small) or if the attached laser information and warning signs are concealed due to the installation position.

Affix the laser information and warning signs so that they are legible without exposing the reader to the laser radiation of the device or other optical radiation.

## **Further information**

- For UL applications, use is only permitted in Class 2 circuits in accordance with the NEC (National Electric Code).
- Use as safety-related component within the safety function is possible, if the component combination is designed correspondingly by the machine manufacturer.
