Technical data

Basic data

|                            |                           |
|----------------------------|---------------------------|
| Suitable for product group | Light section sensors     |
| Suitable for               | LxS light section sensors |

Functions

|           |                      |
|-----------|----------------------|
| Functions | Dynamic applications |
|-----------|----------------------|

Mechanical data

|                                        |                 |
|----------------------------------------|-----------------|
| Design of mounting device              | Mounting system |
| Type of fastening, at system           | For 12 mm rod   |
|                                        | For 14 mm rod   |
|                                        | For 16 mm rod   |
| Type of fastening, at device           | Clampable       |
| Mounting device material               | Metal           |
| Tightening torque of the clamping jaws | 12 N·m          |

Classification

|                       |          |
