Options

Low temperature	Order key										
The encoder EI30 P 100 HI with the output circuit types C4, C6, D4, D6, C3, C5, D3, D5, C1, C2 is also available with the extended temperature range -40 °C up to +85 °C [-40 °F up to +185 °F] (measured at the flange).	LT										
Pressure equalising membrane	Order key										
The EI30 P 100 HI shaft encoder is also optionally available with a pressure equalising membrane. This prevents water from penetrating into the encoder housing in the case of high air humidity. The IP67 protection level, temperature range and salt spray resistance are maintained. Resistant to chemicals and solvents in accordance with DIN EN ISO 2812-1. <table><tr><td>Max. Cable length	Order key										
The encoder EI30 P 100 HI can be supplied with more than 2 m cable. The maximum cable length depends on the supply voltage and the frequency. Please extend the standard order code with a three figure number, specifying the cable length in decimetres. Example: 5 m cable = 050	XXX = Decimeter
